

All voltages are measured with V.T.V.M. with input impedance min 10 Mohms. All DC voltages measured without signal.

(1mV) Denotes signal voltages (1000Hz)
 1mV Denotes DC voltages
 (10V) Denotes voltages in operated mode

L = Left channel (Track 1 or 4)
 R = Right channel (Track 2 or 3)
 = Connector
 O 101 = Connection terminal

TRANSISTORS SEEN FROM UNDERNEATH
